Ronald M. Harden

'Medical education in general is characterised by the paradox of students' need to learn by trial and error without the luxury and opportunity of making mistakes.'

Wooliscroft & Schwenk, 1989

'A good consultant is accessible, approachable and friendly, with the power of a god, the patience of a saint and the sense of humour of an undergraduate.'

Lowry, 1987

'It goes without saying that no man can teach successfully who is not at the same time a student'

Sir William Osler

'Medical education is not completed at medical school: it is only begun.'

William H. Welch, 1850-1934
